

PUPPY WORK!

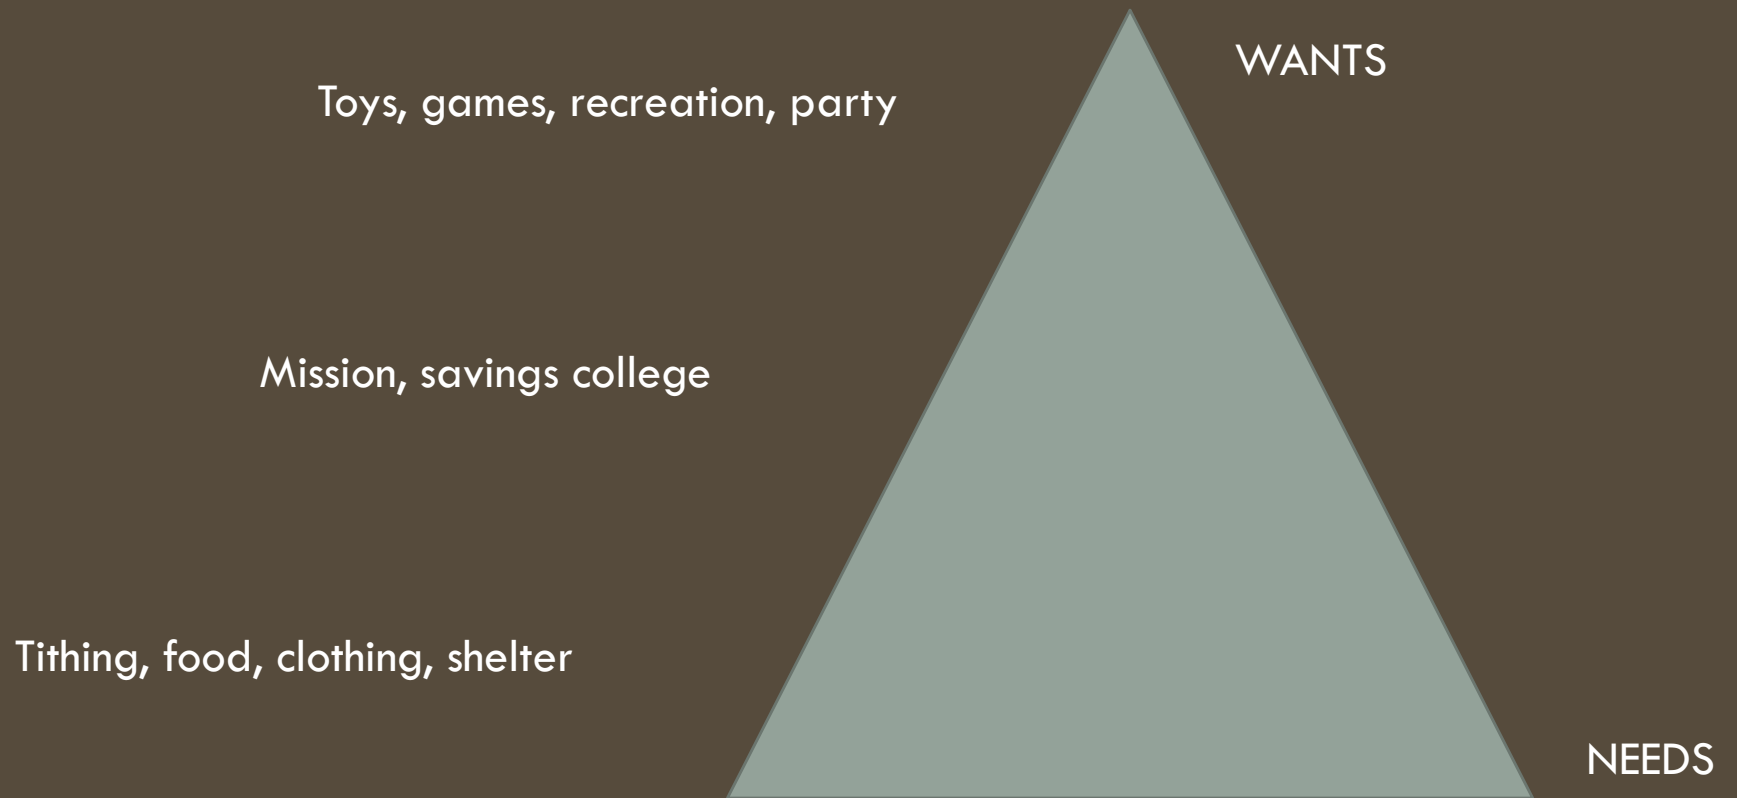

TIPS

TEACHING CHILDREN TO WORK

NOTES

- “YOUR BEST IS GOOD ENOUGH FOR ME” – Make sure you know your children and that you are not being manipulated. Push them!
- How do you prevent a revolution when you push them? How do you raise the bar without fury? YOU WON'T! IT IS HARD. BE CONSISTENT.
- Be clear on expectations. What do you want done and when? What are the consequences of not getting the work done?
- Make sure they have work/jobs outside of homework, music, sports.
- Make service part of what you do. Live for others!

TEACHING CHILDREN FINANCES

Do not invert the triangle!

TIPS

TEACHING CHILDREN FINANCES

NOTES

- Do not give your children a false sense of what money can buy.
- What about allowances? Is it free money or hard earned money? Are they a major contributor to the family. Tie those two together.
- Pay jobs should be in addition to regular jobs.
